

THE CUP DEFENDER

Failed to Register Third Victory
Over the Challenger For
Lack of Wind.

ABOUT HALF A MILE FROM FINISH

The Shamrock III Was a Faint Blur
on the Horizon Fully Two and
a Half Miles Astern.

The Reliance's Ultimate Triumph Is
Now Conceded, Even By Sir Thos.
Lipton Himself, to Be Sim-
ply a Formality.

New York, Sept. 1.—Again Monday the beautiful cup defender Reliance failed to register her third victory over Lipton's challenger because the wind died to nothing and the time limit of five and a half hours expired before she could reach the finish line. Her margin was approximately the same as on Thursday last. She was less than a half mile from the finish when the gun sounded. The Shamrock III, was a faint blur on the horizon, fully two and a half miles astern. Reliance's failure to score the race was the more exasperating because her ultimate triumph is now conceded, even by Sir Thomas himself, to be simply a formality. The superiority of the Herreshoff boat in any kind of weather is acknowledged by the yachting critics of both sides of the Atlantic and Monday's fluke only prolongs the agony of the contest that has already been decided.

The waning interest in the cup races is strikingly illustrated by the size of the observation fleet of ships which went down to the ocean race course Monday could be dignified by such a title. Outside of the revenue cutters, which patrolled the course, it consisted of half a dozen side wheelers, with almost empty decks, a few seagoing tugs and a score of steam yachts. The easterly wind and rain Sunday night had served to knock down the sea somewhat, although it was rough enough the first two hours of the race to make the boats tumble about a good deal and the yachts to plunge and stagger on their way to the outer mark. But as the day wore on the wind hauled to the north and fell to a mere zephyr, hardly strong enough to round out the enormous canvases of the sloops, and the sea subsided to a smooth surface.

The race was spiritless from the beginning. It was laid 15 miles to windward up the Long Island shore and return. Its saving feature was the start, in which Capt. Wringe, by a pretty piece of maneuvering, neatly turned the tables on the Yankee skipper and captured the windward birth. Even so, the yachts crossed the line abreast like a harnessed team of horses.

But within 15 minutes the defender was showing her heels to the challenger and when the float at the outer mark was reached she rounded it 20 minutes and 23 seconds ahead of her rival. In the five times the boats have met this was by far the worst beating Shamrock III. has had in windward work. The only interest which remained after that was as to whether Reliance would be able to reach the finish line in time to score the race.

MILE IN TWO MINUTES.

Dan Patch's Unsuccessful Attempt to
Lower the Pacing Record.

St. Paul, Minn., Sept. 1.—Dan Patch Monday unsuccessfully attempted to lower the world's pacing record at the state fair grounds. He went a mile in two minutes flat. The day was ideal being warm, with scarcely a breeze stirring, and the track was in first class condition. After being sent a warming up mile in 2:10½, Dan Patch, accompanied by his running mate, Old Mike, appeared for his trial against time. At the second scoring McHenry nodded for the word and the stallion was off, covering ground in long, easy strides. Time by quarters: :30; 59%; 1:30½; 2:00.

THE KENTUCKY TROOPS.

They Will Maneuver in Order to Be
Eligible For the Encampment.

Frankfort, Ky., Sept. 1.—There seems to be some hitch in the plans for the Kentucky state guard to take part in the West Point encampment of regulars near Louisville in September, and Adj. Gen. Murray called Cols. T. J. Smith, R. D. Williams, Jonett Henry, Maj. Mansler and several captains into conference here Monday night to decide what was best to be done. The national government has imposed some restrictions as to state militia that may exclude Kentucky soldiers from the encampment. It was decided Monday night to take the entire 2d and 3d regiments and artillery battalions of Louisville to West Point. The companies will be moved on September 30 direct to the camp.

Detailed orders of instructions were given to the captains to drill the companies at stated periods from this time to the date of the movement with a view of participating in the maneuvers, and to the majors to visit the companies at stated periods.

A DOUBLE ELOPEMENT.

The Young Folks Wed While Breath-
less Father Fumes.

The contracting parties were Miss Nannyville Worford to Edgar Everette Lee and Miss Lillian Thompson to Jas. Sharpe. County Judge Jas. H. Polgrove performed the ceremonies.

Col. Jordan Thompson, father of one happy bride, arrived 20 minutes after it was all over. He says he will make trouble for whoever granted licenses to the young people, as he claims his daughter is under age.

Burtram and the latter's son, Jordan Burtram. The Burtrams are in jail at Benton.

WAR IS IMMINENT.

Nothing Short of a Miracle Will
Prevent Hostilities Between
Turkey and Bulgaria.

INSURGENTS CROSS THE FRONTIER

Turkish Troops Sent to Garrison a
Small Town Have Spread Destruction
Along Their Route.

Villages Robbed, Women Violated and
the Christian Population Subjected
to Every Conceivable Outrage—
Authorities Helpless.

Sofia, Bulgaria, Sept. 1.—Both in official and revolutionary circles the opinion is freely held that war between Bulgaria and Turkey is imminent and can be averted by nothing short of a miracle. It is not expected that either government will formally declare hostilities, but the prevailing conditions will force on a war.

There is no question that large numbers of insurgents have recently crossed the frontier. An executive outbreak in Northern Macedonia is possible any day.

The Antonomic prints a telegram from Constantinople declaring that the sultan, informed by the counsels of Germany, now favors a war with Bulgaria. The Turks here, however, take an optimistic view, asserting that there is no danger of a war, as Turkey does not desire one and Prince Ferdinand and the present Bulgarian government are not in a position to force hostilities.

The Bulgarian agent at Uskub reports that the detachments of Turkish troops sent to garrison the small towns in that vilayet have spread destruction along their route; the villagers have been robbed and beaten, the women violated and the Christian population subjected to every conceivable outrage, while the local authorities appear to be helpless to stop the atrocities. At the village of Drachevo, six miles from Uskub, the soldiers attacked all the peasants without the gendarmes interfering on behalf of the latter. The Bulgarian agents specify similar excesses in many other villages and the position of the Bulgarian residents is reported to be terrible, as the cruelties committed by the Turkish authorities exceeded all limits.

Up to 6 o'clock Monday evening Prince Ferdinand had not arrived in Sofia, and the court officials declare that they are without information as to his movements.

No Occasion For Them to Take the
Oath of Allegiance.

Washington, Sept. 1.—As a result of an investigation of the question Acting Secretary Darling, of the navy department, has concluded that there is no occasion for any action by the navy department at this time on the proposition that all employees of the navy department and navy yards be required to take the oath of allegiance to the United States. He found upon inquiry that only citizens of the United States and only such non-citizens as have been honorably discharged from the army, navy or marine corps are eligible for employment in the naval establishment.

CHICAGO STATISTICS.

More Men Than Women Are Born in
the Windy City.

Chicago, Sept. 1.—An Eveless Chicago is threatened. Already Chicago is a city of men and boys and each year sees the fair sex becoming more and more a minority. The health department's last bulletin says:

IRON, STEEL AND TIN WORKERS.

They May Decide to Work Shorter
Hours in the Future.

Pittsburg, Pa., Sept. 1.—The result of the convention Monday of the sheet mill lodges of the Amalgamated Association of Iron, Steel and Tin Workers, will probably bring about a decision that the men work turns of six hours each instead of eight, as at present, and limit of output be the same for each turn. This solution of the present deplorable condition of the sheet steel trade is thought to be sufficient to bring about the desired effect.

man Severely Wounded.

The police have been unable to learn Viola's motive.

a Bullet.

Keevil, son of a well-known merchant, ended his own life Monday. He left no message of sorrow or explanation. Mrs. Keevil, who was Annie Sehnart, carried the secret of their marriage to the grave. She declared there had been no quarrel.

HATE FOREIGNERS.

A Gibbet Erected in Cumuna,
Venezuela, on Which Was
Hanged an Effigy.

"DEATH TO FOREIGNERS" THE CRY

Frenchman and German Arrested in
Ciudad Bolivar For Refusing to
Pay Taxes Already Paid.

All Aliens Who Dare to Present Claims
Against Venezuela, According to
the Recent Protocol, Are Be-
ing Hunted Down.

Colombia, Venezuela, Sept. 1.—A gibbet was erected in a street of this city Sunday on which was hanged an effigy representing a foreigner, and the populace beat the dummy with sticks amid shouts of "Death to foreigners." Two leading traders, M. Palazzo, a Frenchman, and Herr Sprick, a German, were recently arrested in Ciudad Bolivar by order of President Castro for refusing to pay their taxes, which had already been collected by the revolutionists during the latter's occupation of the city. Many other persons were also arrested on the same charge.

The French and German ministers at Caracas protested and obtained the immediate release of their fellow countrymen.

Gen. Rolando and 200 rebel officers, who were captured at Ciudad Bolivar, have arrived at Maricao. They were incarcerated in the fortress of San Carlos with their feet in irons.

Willemstad, Island of Curacao, Sept. 1.—Harsh injustice is being meted out to foreigners residing in the interior of Venezuela where the local authorities are hunting down all foreigners which dare to present claims against Venezuela in accordance with the recent protocol. Near Coro a local tribunal refused to accept the testimony of five Italians. On the latter insisting in tendering their depositions, three were arrested and thrown into jail. Two of them attempted to escape and were fired upon, on being killed. The Venezuelan government does not deny this occurrence, but is doing nothing to prevent repetitions. It is learned on good authority that letters sent to foreigners from the Italian and other legations, instructing them to send in their claims, were seized in the post so as to prevent the claims from arriving in Caracas in due time.

MCCARTNEY, the Republican nominee for State Superintendent of Public Instruction, voted as a Democrat in a primary election in Henderson last March in which the voters pledged themselves to support the Democratic ticket in the coming election. If he lives up to his pledge, the Republicans will be called on to support a man who will cast his vote for their opponents.

Higher Standard Required.
 Owing to the determination of the chief of artillery to require a higher standard of expert knowledge on the part of the officers of the service, numerous artillery lieutenants are offering to exchange posts with cavalry and infantry lieutenants. Many civilians recently appointed to the army under the reorganization act are unfamiliar with the technical requirements of the artillery service, and are anxious to evade the tests soon to be applied.

PITHY POINTS.

 Jim Howard couldn't be induced to accept a new trial now.
 The trouble was that Powers couldn't get a jury to suit his case.
 Durbin will claim now that he was fully warranted in detaining Taylor in Indiana.
 Caleb Powers' friends helped him into a bad box by furnishing the means for a new trial.

SUBURBAN TROLLEYS.

Their Effect on Farm and Other Values. Some Things to Be Avoided.

An article in the Ohio Farmer giving an account of the electric lines running out of Cleveland relates some facts in regard to their effect on farm values. It says: "Naturally land values have climbed up rapidly since these roads have made this section more accessible. Farms between Willoughby and Painesville that formerly sold for \$75 or \$100 per acre, now find buyers easily at \$150. These two electric roads are not doing so much as they ought in freight accommodation to this region. Most of the gardeners, fruit raisers, and general farmers still take their produce to Cleveland by wagon, as of yore, because the electric cars not only do not carry heavy freight, but their package freight charges are practically prohibitive of profitable transportation for the farmer. "A good farm south of Oberlin that was purchased for \$33 per acre before the electric road was built, sold for \$45 per acre very soon after the construction of the line.

"Merchants of thriving suburban towns have generally at first bitterly opposed the construction of these electric roads, because they feared injury to their trade on account of the cheaper rates to Cleveland, but inquiry of merchants and business men in several of these towns reveals the fact that, in general, business has increased. Dry goods merchants have suffered some, but most of them say that custom has changed, the trade in the more expensive lines like carpets, nice dress goods, etc., going more to the city, but on staple cottons and linens and small supplies it has improved, especially during the winter months, when bad weather and roads formerly kept country people at home. Grocers, in general, tell us that while they notice but small increases in their country trade, yet they appreciate the electric lines, because they render it easier to get supplies from the country in winter, bad weather or busy summer season. Some of the hardware men were conservative; some enthusiastically declared that the trolleys had increased sales 15 to 20 per cent. And men's clothiers very generally testify to 25 or 30 per cent. better trade than before. In the towns in which we know something about the stores before and after the advent of electric roads, we can not see that the stores have retrograded or disappeared. Indeed, they have vastly improved; they carry better lines of goods because their customers get about and see styles and quantities, and demand it. It has made livelier business methods and the live merchant succeeds where the fossil loses trade and goes under. A few complained that they had "to hustle" with all sorts of schemes to attract trade, and we noticed that the complainers' stores were not very bright or lively. Electric roads wake up the merchants as well as the people."

Mr. Jacob Roser and daughter were at Washington Friday to attend the obsequies of the late Charles Ham, an old friend of theirs. Mr. Roser said the drought in his neighborhood has been the most disastrous in years. He cut a field of clover and was looking to get a fine yield of seed from the second growth, and there had come up hardly a single sprout as yet, but the field was as dry and brown as a mud road. Mr. Roser says he has a field of corn, the land as good as any in the county, that won't make a half of a bushel to the acre.

Silk Remnants...

The difference between remnants from our standpoint and from yours is that we do not like them and you do. We are anxious to get rid of them, you are anxious to get them, a condition sure to breed bargains.

"RELIANCE" ALWAYS WINS.

Whether in a boat with towering sails, directed by crafty sailors, or in a store bedecked with goods and guided by courteous clerks, RELIANCE will always win.

Said Sir Thomas Lipton: "Give me a good wind and I will win." He got the wind, but not the win.

No, no, Sir Thomas, it is not the wind that wins the race, but the BOAT.

It's not the wind that sells goods, but the goods. Many stores have more wind than we, but we are generally found in the lead.

RELIANCE is our watchword. Every lurch of goods you buy from us you buy with the word "Reliance" stamped on it.

The RELIANCE has our congratulations.
The SHAMROCK III our sympathy.

LEDGER'S "HOLD-UP."

No Truth in Story That White Women Were Interfered With Sunday Night.

The Ledger published a sensational story Monday about drunken negroes holding up some white women on East Third street Sunday night, adding that Joseph Kane went to their rescue and escorted the women home. It closed with the statement that here was a case for the police to work on.

The facts as brought out in the Police Court are that three young negroes, Milton Robinson, of Flemingsburg, Gus Walker and Clarence Moore went to Crowell's saloon Sunday evening and played the slot machine for enough whiskey and beer to make them drunk. Moore and Walker then took Robinson to his boarding house on East Fourth street; he afterwards started back down street, followed by his mother and sister who were trying to get him back home. While they were arguing with him on East Third street Kane came along and said something to them, Robinson made a hot reply and Kane knocked him down. At the corner of Third and Plum the two again clashed, and Robinson was floored twice more by Kane. He was then taken home by the two negro women, and was later arrested and jailed by Policeman Easton for breach of the peace and was in custody long before the Ledger's article appeared.

The nearest that any white women were connected with the affair was that Kane said he saw two passing down street.

Robinson was fined \$20 and costs, Walker, \$6.50 for being drunk, and a warrant was issued for Crowell for selling to minors.
